

## ENGINEERING SERVICES

We have divided our engineering services into 3 categories: Information Technology, Product & System Design & Development. These services include but are not limited to the following:

### ► INFORMATION TECHNOLOGY (PC-based & AS/400)

#### PC-Based

Network Implementation

Windows XP/2000/NT/Me/9x

Windows XP/2000/NT/Me/9x AS/400

Integration

Email Systems - Microsoft Exchange

Thin Client - Citrix, Terminal Server

Firewall Implementation

Microsoft SMS

Remote Network Access

LAN/WAN Solutions

AS/400 Report Distribution via:

E-mail

Web Site Posting

Lotus Notes Database  
Exchange Public Folders

#### AS/400

RPG Programming

Emailing AS/400 Reports

MAPICS Modification

Microsoft Network Integration

Performance Tuning

### ► PRODUCT & SYSTEM DESIGN & DEVELOPMENT

#### CAD Services

(2D & 3D) Drawing Development

Solid Modeling

#### Product Design

Analysis

Finite Element

Product Failure

Design & Engineering

Testing

Troubleshooting

System Design  
Design & Review  
Energy Audits  
Troubleshooting

### ► WORKPLACE PERFORMANCE

Time Studies

Manufacturing Cell Design

Workplace Planning & Design
